

**GATES ALBERT, INC.**  
*The Specialist in Precision-Turned Products*

# High Volume Precision Turned Components

# HIGH VOLUME PRECISION TURNED COMPONENTS

## Capabilities

- Multi-Spindle Precision Turning
- Tightest Tolerances in the Industry
- Up to 1" Diameter and 4" in Length
- Engineering Support
- Assembly and Testing
- Plating
- Heat Treating
- Anodizing
- Grinding

## Equipment

- Exclusively Produced on Davenports
- Proprietary Equipment and Technologies
- Over 100 Davenport Machines in Production Utilizing the Latest Technology from Davenport Machine Including:
  - Davenport HYBRID — CNC accuracy and features with legendary Davenport productivity
  - Davenport HP with High Precision Head
  - Davenport 1" Model B

**Experts at Making  
Quality Parts  
Quickly and Economically**

## Quality

- Complete Process Traceability
- Quality Planning Expertise
- Statistical Process Control
- ISO 9001: 2015 Certified
- IATF 16949: 2016 Certified
- DOD DLA-DSC-P Certified
- Visual Inspection Equipment
- Laser Inspection Equipment

## Cleanliness

- DURR Cleaning Systems

## Robust Inventory Management System

- Develop and Manage Custom Programs
- Min/Max Programs
- Kan Bans/JIT
- Self-Release
- Large, Complex Programs with Multiple SKU's
- Custom Packaging
- VMI and Consignment

## Materials

- Aerospace Alloys
- Aluminum
- Brass
- Bronze
- Carbon Steel
- Copper
- Stainless Steel

## Industries & Markets Served

- Aerospace
- Appliance Controls
- Automotive
- Communication Equipment
- Construction/Housing
- Defense
- Electrical/Electronics
- Entertainment & Recreation
- Fasteners
- Fluid/Servo Controls
- Heavy Equipment
- HVAC/Refrigeration
- Insert Molding Components
- Medical
- Oil and Gas
- Outdoor Power Equipment
- Plastics
- Security Systems/Devices

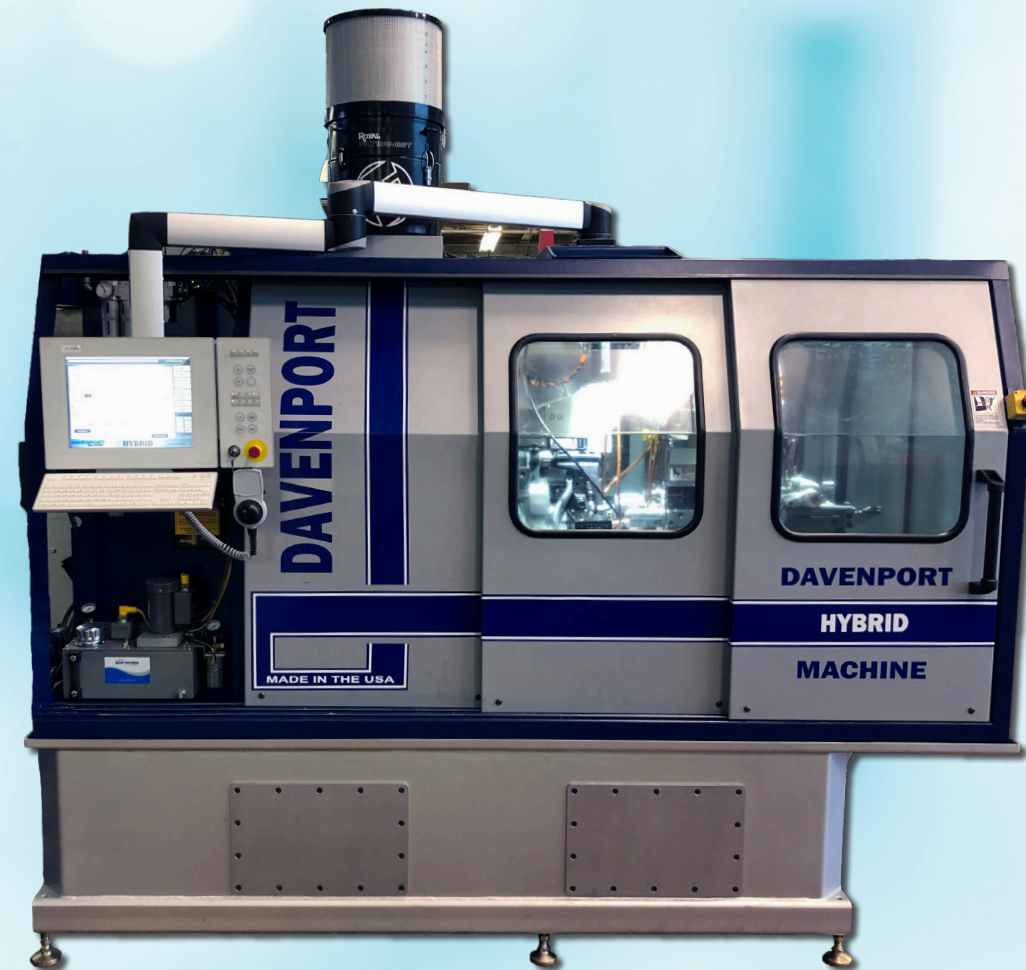

# “State of the Art” Davenport Machines

- *Sister Company to Davenport Machine.*
- *All production exclusively produced on Davenports.*
- *Proprietary processes, equipment and technologies.*
- *Ability to hold the closest tolerances in the industry!*
